Re: Reference

I have had the pleasure of partnering with CGK as they engaged in their tutoring initiative funded by the MD GEER grant for the 2020-2021 school year. CGK provided high quality, in-person tutoring services for elementary and middle school students who demonstrated a need for additional support. CGK's tutors met the needs of 40 students at their homes twice a week. CGK also collaborated with and facilitated workshops for the parents of students being tutored.

Sincerely,

Rochelle Cole, Community Site Specialist
