Re: Reference

The SoBRO afterschool at Emolior Academy has had the pleasure of working with CGK as an in-kind partnership program provided through Emolior Academy during the 2021 Summer Rising session. CGK offered an engaging 5 week STEM CODING immersion summer camp program for 15-30 program participants in grades 6 through 8 who demonstrated excelling interest in this field. Participants learned a series of coding languages ranging from beginner levels to advanced and were able to effectively demonstrate understanding at the end of program term.

Sincerely,

A handwritten signature in black ink, appearing to read "Kiaribel Peralta".

Kiaribel Peralta, Senior Program Director
